SPERIMENTAZIONE

Dal 2006 ASUS si dedica a trasformare l'immagine tradizionale del computer, non più legato da un punto di vista funzionale. La linea Zenbook e Pencil hanno risposto a questa tendenza.

La serie Zenbook è la prima linea di Notebook realizzata con un design che fa eco alle linee del rispetto per la natura. Una classica che coniuga altre materiali: carbonio, pelle, legno, ceramica, metallo. ASUS ha creato un'atmosfera unica e armoniosa, un'atmosfera che si vive anche con la serie "Pencil" realizzata per gli studenti, pensata per il computer portatile, garantendo alta portatilità.
